> There is a very general inli now in army movements, extending to all our armies. Each side, after the bitter and arduous struggles of the past season, are striving to recuperate and rest during the hard winter months. They are so far exhausted as to be mable on the one side to fellow up the blows which have been deslt so severe'y, and on the other to make any more effort to retrive the disasters of the summer.

The contest on the Mississippi up to Memphis has virtually ceased, having become only trifling outbreaks of guerrillas and others. From Memphis to Chattanooga similar trifling outbreaks occur, in the shape of forage. Grant is strengthening his position and extending his lines still further into the enemy's country. Hardee is said to be at Dalton, Ga., and

very recently has handed over the command of the army to Gen. Joe. Johnston. Longstreet, it is true, is threatening East Tennessee, but with what chances of success we are

Grande, the object being to cut off one source of supplies from the enemy.

Butler is at Norfolk, and is doing little, and that little in jurious as could be anticipated. His whole theory of the war seems to be the "contraband" and nothing else. In the matter of the exchange of prisoners, the anticipations of a speedy cartel is, we regret to say, premature. The rebels refuse to treat with Butler, averring that he has been outlawed by their Government, and, therefore, that they

Hence, simply to have their enriceity satisfied, the sum lost being too small to interest anybody, the people ask for information on the subject; the people ask for information of the sattleet; and as a reward therefor, they offer a richly bound and elegantly illustrated work, to be published in twelve querto volumes, of one thousand pages, and entitled Four Years of Abolition Rule; the first volume to contain the Lincoln jokes and ancedotes, the other elever, the infamles of the whole concern, arrows which this little matter of ten millions. Desperate Legislation in the Rebel Con-

Senator Brown, of Missleslppl, made a strong speech in the rebel Congress on the 24th ult. in support of resolutions in favor of declaring every man in the Confederacy capable of besring arms a soldier, not excepting even those who had hired substitutes, allowing neither exemptions nor substitutes. His resclutions also required all foreigners either to join the army or leave the country. The closing of his speech, relating mainly to the currency, is as follows:

Horrible Affair-Soldiers Poisoned by Women-The guilty parties Arrest-

At a late hour last night we were put in possession of facts which form one of the nost revolting crimes ever committed, and which adds another to the long list of tragedies which now startle the whole community, and before which society stands aghast and appalled. Within the past few weeks we have peen called upon to chronicle two of the most inhuman and unprovoked murders that have hitherto darkened the fair fame of our city, of a human being by violence is a subject of horror; but when the death of one is caused by a slow but deadly poison, administered by a supposed friend, it is suf ficient to make the very blood run cold. The object is noble, and the work proposed to be done is necessary to secure any thing like system or efficiency in the laudable and gencrous efforts that are making to elevate the condition of the poor. In several of the eastern cities benevlent associations, whose powers and dntie's are prescribed by charter, have worked admirably. From a report of an association in New York, having chartered powers, it appears that in one year, frem October 1st, 1862, 7,583 families of 33,845 persous, were relieved by an expenditure of only \$36. 670.28. Now the number of suffering poor in onr city can hardly reach 5,000, and about \$15,000 has already been raised in this city this winter and has been expended, and many several other gentlemen who have interested of the poor have not been reached, and it may themselves in the efforts that have been made never be known where the money that has in behalf of the poor, to call a meeting this been expended is gone. When at the intersection of Fourth street it came in contact with another sleigh, upsetting it and throwing the occupants into the street, one of whom, a young man, received a bad ont over the left eve. On the same evening four horses attached to an omnibus containing a number of young ladies, on their way to school, took fright and ran out Seventh street. A number of the young ladies, being frightened, attempted to jnmp from the 'bus, and in doing so three of them fell and were considerably bruised, though none of them are seriously injured.

Proclamation by the Governor.

EXECUTIVE DEPARTMENT, } FRANKFORT, KY., Jan. 4, 1864. The frequent outrages perpetrated in various parts of the State by lawless bands of maranders can, in a large degree, be traced to the active aid of rebel sympathizers in our midst, or their neglect to furnish to military commandants the information in their pos

session, which would lead to the defeat and capture of such marauders.

Sympathizers with the rebellion who, while enjoying protection from the Government, abuse the leniency extended to them by concealing the movements of rebel guerrillas, by giving them information, affording them shell er, enpplying them with provisions and oth-rwise encouraging and fomenting private raids, are ln criminal complicity with all the

outrages perpetrated by the marauders whom they secretly countenance.

It is in the power of persons whose sympathis are with the rebellion to prevent gner-rilla raids, almost lovariably, by furnishing to military officers of the United States or State of Kentucky the information which expe-rience has proved them to be, as a general thing, possessed of.

If all would unite, as is their duty, in put-

ting down guerrillas, we would soon cease to be troubled with their aids. A neglect to afford all assistance and information which may aid in defeating the designs of maranding parties can but be construed as a culpable and active assistance to our enemies. I therefore request that the various milita-ry commandants in the State of Kentucky

ry commandants in the State of Kentucky will, in every instance where a loyal citizen is taken off by bands of guerrillas, immediately arrest at least five of the most prominent and active rebel sympathizers in the vicinity of such outrage for every loyal man taken by gnerrillas. These sympathizers should be held as hostages for the safe and speedy return of the loyal citizens. Where there are disloyal relatives of gnerrillas, they should be the chief sufferers. Let them learn that if they refuse to exert themselves actively for the assistance and protection of the loyal.
